THIS ONE CAN DO EVERYTHING!

The new High Torque Ratchet Wrench, 1/2" 1,075 Nm with telescopic extension

Due to the particularly high torque in combination with telescopic extension the reversible ratchet is the perfect tool, e.g. for loosening stubborn and tight screws without any problems.

Drive:
12.5 mm (1/2")

Particularly
high torque:
1,075 Nm

With telescopic
extension

Fine toothed
with 90 teeth

Very low
swing angle

Material:
chromium
vanadium

Particularly handy
2-component
handle

Can be fixed in 6 positions:
310 - 340 - 365 - 390 - 420 - 450 mm

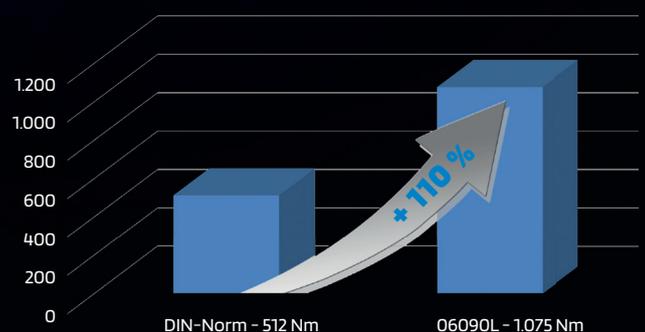

Tested by an
independent
testing institute
